

## ***Citizens' Advisory Committee***

### **Sub-Committee: Special Programs**

#### **Potential Projects to Consider:**

##### **Career and Technology**

###### **District Wide**

- New Career and Technology Center
  - Provide new Center to address the growing demand both within the District and outside the District for these options and certifications. The facility could include HVAC/Plumbing, Law Enforcement, Engineering, Health Science, Computer Science, Welding, Automotive, and Cosmetology.
- Provide District-wide Agri-science barn utilized by all high schools.
- Renovation and/or expansion to the LaGrone Advanced Technology Complex to accommodate expanded programs in Health Science, Welding, Cosmetology, and Engineering

###### **High Schools**

- Denton High School
  - Provide commercial kitchen space, like Braswell HS, in area currently used for consumer science.
  - Renovate and expand Agriculture shop area.
- Ryan High School
  - Provide commercial kitchen space, like Braswell HS, in area currently used for consumer science.
  - Renovate and expand Agriculture shop area.
- Guyer High School
  - Provide commercial kitchen space, like Braswell HS, in area currently used for consumer science.

## Schools/Programs of Choice

- **Davis School**

- Capital Improvements

- (Considerations)

- Architectural

- Repaint canopy
        - Replace sealants at opening and control joints
        - Replace aged and damaged VCT and hardware
        - Replace aged and damaged casework

- (Recommendations)

- ADA/Civil

- Replace non-compliant parking and access, add accessible route to side parking lot, add accessible route to playground, replace approximately 4,679 s.f. of damaged paving and 350 s.f. of sidewalks, resurface play area of approximately 8.030 s.f.

- MEP

- Replace 3 HVAC units due to end of life cycle.
        - Replace lighting and controls in restrooms and at the exterior.
        - Provide separate domestic and irrigation meter

- Kitchen

- Replace aged kitchen equipment – Combination oven, dish machine, dish table, double convection oven, and 2 burner range with oven.

- **Ann Windle**

- Capital Improvements

- (Considerations)

- Architectural

- Replace damaged metal panel veneer.
        - Replace sealants at opening and control joints.
        - Investigate potential moisture in stone wall
        - Renovation to all restrooms.
        - Replace aged and damaged flooring.

- (Recommendations)

- ADA/Civil

- Replace non-compliant sidewalks, provide accessible ramp to stage, replace approximately 9.500 s.f. of damaged paving, 350 s.f. of damaged sidewalk, 100 s.f. of damaged pavers, address a sink hole near building allowing water under the building foundation.

- MEP

- Replace 15 rooftop units due to end of life cycle.
        - Replace 4 water heaters.
        - Replace fire alarm due to end of life cycle.

- Kitchen

- Replace aged kitchen equipment, ice machine, water filtration system, kitchen exhaust hood, and kitchen counters.
